

Forthcoming Meetings

The 2nd International Conference on Thermoelectric Energy Conversion, sponsored by the Graduate School and Electrical Engineering Department, will be held on the campus of the University of Texas at Arlington, Texas, USA on 22–24 March, 1978. The purpose of the Conference is to bring together an international group of specialists working in all areas of thermoelectric conversion. The formal and informal interactions between these specialists will provide an exchange of recent results, identification of new problem areas, and planning guidance for future thermoelectric projects. The Conference is also designed to familiarize the engineering, scientific, industrial, medical and academic communities with all aspects of thermoelectric energy conversion.

Further details may be obtained from: Professor K. R. Rao, Department of Electrical Engineering, University of Texas at Arlington, Arlington, Texas 76019, USA.

Programme and information on accommodation will be available during the first week in December and the full text of papers is required by 10 March 1978.

The first conference was attended by representatives from 9 countries and copies of the Proceedings of this meeting, held in September 1976, are available from Professor Rao at \$20 per copy. Cheques made payable to the University of Texas at Arlington (UTA).
