

## Editorial Announcement

---

Due to a change of job which has taken me out of the field of 'Power Sources' I feel that it is time for me to hand over the position of European Editor to someone who is still active in the field. Fortunately, in Pat Moseley, we have found such an enthusiast to continue where I have had to stop and I would like to take this opportunity to pass on to him my best wishes in this undertaking.

For my own part I have thoroughly enjoyed my time spent as an Editor and will miss my regular contact with the many friends I have made, even though our only communications were often only 'on-paper' as it were. At the same time can I thank all the referees who have so painstakingly undertaken the task of reviewing the wide range of papers which are received and I hope you will be able to give the same help and support to Pat in the future. To our authors thank you also for the papers without which any Journal will fail; keep up the good work.

Finally, my best wishes and thanks also to my colleagues at Elsevier and my co-editors Chris and David, may our Journal go from strength to strength.
