

## SUBJECT INDEX: GROVE ANNIVERSARY FUEL CELL SYMPOSIUM

---

- Alkaline fuel cells
  - design of, 149
  - at Elenco, 201
- Commercialisation
  - of on-site fuel cell in Japan, development and, 87
- Design
  - of alkaline fuel cells, 149
- Electric Power Research Institute
  - role in developing fuel cell systems, 47
- Elenco
  - alkaline fuel cells at, 201
- Europe
  - fuel cells in, 133
- European Space Agency
  - fuel cell, 207
- Fuel cell(s)
  - alkaline
    - design of, 149
    - at Elenco, 201
  - applications and market opportunities, 37
  - in Europe, 133
  - European Space Agency, 207
  - and future; Sir William Grove to today, 3
  - importance of, to address global warming problem, 13
  - in Italy, 143
  - power production, Tokyo Electric Power Company approach, 97
  - for propulsion, marine and naval applications of; process selection, 169
  - solid oxide; next stage, 223
  - solid polymer, renaissance of, 239
  - in space; yesterday, today and tomorrow, 193
  - for transportation, 251
- Fuel cell applications
  - for ships and submarines, possible, 181
- Fuel cell developments
  - in Japan, 29
- Fuel cell systems
  - Electric Power Research Institute's role in developing, 47
- Fuji Electric
  - PAFC activities, 109
- Global warming problem
  - importance of fuel cells to address, 13
- Grove
  - Sir William, to today; fuel cells and future, 3
- Italy
  - fuel cells in, 143
- Japan
  - fuel cell developments in, 29
  - on-site fuel cell, development and commercialization, 87
- Marine and naval applications
  - of fuel cells for propulsion; process selection, 169
- Market introduction
  - of PAFC systems, technology development and, 71
- Market opportunities
  - fuel cell applications and, 37
- Molten carbonate fuel cell
  - programme in the Netherlands, 77
- Netherlands
  - molten carbonate fuel cell programme in, 77
- Phosphoric acid fuel cell (PAFC)
  - Fuji Electric, activities, 109
  - technology development and market introduction of PAFC systems, 71
  - Westinghouse air-cooled PAFC technology, 59
- Power production
  - future of fuel cells, for, 119
  - Tokyo Electric Power Company approach to fuel cell, 97
- Process selection
  - marine and naval applications of fuel cells for propulsion, 169
- Ships
  - possible fuel cell applications for, and submarines, 181

**Solid oxide fuel cells**

- next stage, 223

**Solid polymer fuel cell**

- renaissance of, 239

**Space**

- European Space Agency fuel cell, 207

- fuel cell in; yesterday, today and tomorrow, 193

**Submarines**

- possible fuel cell applications for, ships and, 181

**Technology**

- development and market introduction of PAFC systems, 71

- PAFC, Westinghouse air-cooled, 59

**Tokyo Electric Power Company**

- approach to fuel cell power production, 97

**Transportation**

- fuel cells, for, 251

**Westinghouse**

- air-cooled PAFC technology, 59
