

Recent Publications on Lead/Acid Batteries and Related Phenomena: 1991-92 Nos. 1 & 2 B1-B52

COMPILING EDITORS

L. Apăteanu and D. A. J. Rand

*CSIRO Institute of Minerals, Energy and Construction
Division of Mineral Products
P.O. Box 124, Port Melbourne
Victoria, Australia 3207*

The aim of this abstracting service is to provide workers with a review of paper titles in the area of lead/acid batteries, and in particular to assist those workers who do not have ready access to citation facilities. The intention is to publish the compilation half-yearly and an author index for a given year will be provided when citations for that year are complete.

The publications are grouped under broad titles and, where possible, are numbered in chronological sequences that will be continued in each succeeding issue. Due to the unavoidable delay between the appearance and the citation of papers, the two issues of each year will necessarily include items published both during that year and during the previous year.

CONTENTS

A.	Battery components (lead(II) oxides, electrolyte, separators, etc.)	B3
B.	Lead and lead alloys	B4
C.	Positive plates (lead(IV) oxides)	B9
D.	Negative plates	B13
E.	Aspects of manufacture	B14
F.	Charging and discharging	B21
G.	Testing and performance	B23
H.	Theoretical aspects and reviews.	B30
I.	Applications (traction, automotive, stationary, etc.)	B35
J.	Author Index 1990 (supplement (i.e. to previous list in issue 45/1))	B46
	Author Index 1991	B47
	Author Index 1992	B50
