### Japan: Note of Support from the Editors and the Publisher

---

The Editors and the Publisher of the Journal of Power Sources would like to express their deepest sympathy to all those affected by the devastating effects of the earthquake and tsunami that struck the Sendai area of Japan recently.

In view of the destruction it has been agreed to refrain temporarily from inviting scientists in the directly affected areas to act as reviewers of the Journal until the situation has returned to normal.

We hope that this modest gesture of support will enable our Japanese colleagues to concentrate on the reconstruction efforts and the challenges posed by the present circumstances.

We trust this will be a short-term measure, and hope that the Journal may be able to call upon their valuable expertise in the near future.

On behalf of the Journal of Power Sources, we would like to wish our colleagues in Japan much strength in overcoming the devastating effects of this extraordinary natural disaster.

The Editors and the Publisher
