#### Aims and Scope

The Journal of Power Sources provides a leading interdisciplinary forum for original research articles, reviews and short communications that cover all aspects of the science, technology, commercialization and application of primary and secondary batteries, fuel cells, supercapacitors, and photo-electrochemical cells. Topics considered include the research, development and applications of nanomaterials and novel componentry for these devices.

Examples of applications of these electrochemical power sources include:

- · Portable electronic
- Electric and Hybrid Electric Vehicles
- Uninterruptible Power Supply (UPS) Systems
- Storage of renewable energy
- Satellites and deep space probes
- · Boats and ships

#### Types of Contributions

- · Original research articles
- · State-of-the-art reviews
- · Short communications

Publication information: Journal of Power Sources (ISSN 0378-7753). For 2012, volume 197–220 is scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (http://www.elsevier.com/locate/ jpower). Further information is available on this journal and other Elsevier products through Elsevier's website: (http://www. elsevier.com). Subscriptions are accepted on a prepaid basis only and are enered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe).
