

Erratum

Vol. 1, Nos. 3–4 (1970), in the article, “On the Nature of the Species Reduced During the Electrochemical Synthesis of Tungsten Bronzes,” by E. Banks, C. W. Fleischmann, and L. Meites, pp. 372–375:

Page 374, column 2: The last complete sentence should read as follows:

“According to the above polymerization concept, the reduced species at the cathode in a melt containing 50% WO_3 –50% Na_2WO_4 would be $(\text{WO}_3)_4^-$.”
