ERRATUM

Volume **132,** Number 1 (1997), in Article No. SC977434, "On the Closely Related Structures of SiF_4 and $CuAl_2$," by Ulrich Häußermann and Sven Lidin, pages 151–155: The rotation angle ϕ of the pair of opposite faces in the square antiprisms of the $CuAl_2$ structure follows the relation $\phi = 2arctan(1 - 4x)$ and not $\phi = arctan(1 - 4x)$ as stated on page 152. The graph shown in Fig. 5a (p. 154), however, corresponds to the correct function $\phi = 2arctan(1 - 4x)$.

This erratum is Article No. SC977687.
