Frank Marken—Referee of the Year 2005
Milivoj Lovric—Referee of the Year 2006

It is the sincere wish of the Regional Editors, the Guest Editors who prepare special issues, and the Editor-in-Chief to thank all referees who served in the last 2 years to achieve the high quality of the *Journal of Solid State Electrochemistry*! Without you, the journal could not be published!

As in 2004, the *Journal of Solid State Electrochemistry* likes to honor the referee who served most frequently with high quality peer reviews:

The referee of the year 2005 is Dr. Frank Marken from Bath University, UK. The referee of the year 2006 is Dr. Milivoj Lovric from Rudjer Boskovic Institute, Zagreb, Croatia.

The publisher Springer wishes to acknowledge both contributors' efforts with a book voucher. My sincere thanks and congratulations go to both scientists and to all other peer-reviewers for this Journal in the last 2 years, listed on the following pages.
