The authors regret errors in Eq. 31 and in the caption of Fig. 4. The correct Eq. 31 is

$$K_{02} = K_{02}^0(1 - \theta) + K_{02}^1\theta \qquad (31)$$

The correct caption of Fig. 4 is:

Fig. 4 Differential capacitance curves in system (C): symbols — calculations according to the model of three parallel capacitors with subsequent allowance for the diffuse layer capacitance; lines — calculations by the 2PC model; numbers — the n-butanol concentrations (in M).
