

(Contents continued from outside cover)

| | |
|---|-----|
| DAI, Z.-J., KUANG, Z.-B. and ZHAO, S.-X., Rayleigh waves in a double porosity half-space | 319 |
| ZHEN, W. and WANJI, C., Free vibration of laminated composite and sandwich plates using global–local higher-order theory | 333 |
| LEE, C.-M. and WANG, Y.S., A prediction method of the acoustical properties of multilayered noise control materials in standing wave-duct systems | 350 |
| MOTTERSHEAD, J.E., GHANDCHI TEHRANI, M., STANCIOIU, D., JAMES, S. and SHAHVERDI, H., Structural modification of a helicopter tailcone | 366 |
| ZHU, B., LEUNG, C.T.O., LEUNG, A.Y.T., XIAO, C. and YUAN, S., Analytic 3-D p -element for vibration analyses of plates, Part 2: Laminated plates | 385 |
| KUANG, Y.-D., LI, G.-Q. and CHEN, C.-Y., An admittance function of active piezoelectric elements bonded on a cracked beam | 393 |
| JEONG, K.-H. and AMABILI, M., Bending vibration of perforated beams in contact with a liquid | 404 |
| WANG, X., GAN, L. and WANG, Y., A differential quadrature analysis of vibration and buckling of an SS-C-SS-C rectangular plate loaded by linearly varying in-plane stresses | 420 |
| Short Communications | |
| DOKUMACI, E., On superaccurate finite elements and their duals for eigenvalue computation | 432 |
| ELISHAKOFF, I. and PENTARAS, D., Apparently the first closed-form solution of inhomogeneous elastically restrained vibrating beams | 439 |
| HU, H., Solutions of the Duffing-harmonic oscillator by an iteration procedure | 446 |
| KAEWUNRUEN, S. and REMENNIKOV, A.M., Sensitivity analysis of free vibration characteristics of an in situ railway concrete sleeper to variations of rail pad parameters | 453 |
| CHEN, H.-P., Efficient methods for determining modal parameters of dynamic structures with large modifications | 462 |
| KLIEM, W., MAILYBAEV, A.A. and POMMER, C., Conditions revisited for asymptotic stability of pervasive damped linear systems | 471 |
| Book Reviews | |
| HOWE, M.S., Lecture Notes on the Mathematics of Acoustics | 475 |
| LEES, A.W., Rotordynamics | 477 |
