

Future Contributions to *Journal of Statistical Physics*

Quantal Master Equation Valid for Any Time Scale

Natsuki Hashitsume, Fumiaki Shibata, and Mayumi Shingū

A Generalized Stochastic Liouville Equation. Non-Markovian Versus Memoryless Master Equations

Fumiaki Shibata, Yoshinori Takahashi, and Natsuki Hashitsume

The Spherical Limit for n -Vector Correlations

Paul A. Pearce and Colin J. Thompson

Position-Space Renormalization for Systems with Weak Long-Range Interactions and the Breakdown of Hyperscaling

H. J. F. Knops, J. M. J. van Leeuwen, and P. C. Hemmer

Zeros of Partition Functions via Correlation Inequalities

François Dunlop
