

CONTENTS OF VOLUME 1

	Number 1
P. HANCOCK C. J. TALBOT P. F. WILLIAMS	1 Editorial: background to the Journal 5 Fold trains in a glacier of salt in southern Iran 19 The development of asymmetrical folds in a cross-laminated siltstone
D. BERTHÉ, P. CHOUKROUNE and P. JEGOUZO	31 Orthogneiss, mylonite and non coaxial deformation of granites: the example of the South Armorican Shear Zone
H. VAN ROERMUND, G. S. LISTER and P. F. WILLIAMS	43 Progressive development of quartz fabrics in a shear zone from Monte Mucrone, Sesia-Lanzo Zone, Italian Alps
R. J. KNIPE and S. H. WHITE	53 Deformation in low grade shear zones in the Old Red Sandstone, S.W. Wales
P. R. COBBOLD D. R. GRAY and D. W. DURNEY	67 Removal of finite deformation using strain trajectories 73 Crenulation cleavage differentiation: implications of solution-deposition processes
S. K. HANMER	81 The role of discrete heterogeneities and linear fabrics in the formation of crenulations
P. R. COBBOLD and C. C. FERGUSON	93 Description and origin of spatial periodicity in tectonic structures: report on a Tectonic Studies Group conference held at Nottingham University, 8 November 1978
	Number 2
G. S. LISTER and M. S. PATERSON	99 The simulation of fabric development during plastic deformation and its application to quartzite: fabric transitions
A. W. B. SIDDANS	117 Arcuate fold and thrust patterns in the Subalpine Chains of South-east France
A. BEACH N. H. WOODCOCK P. L. HANCOCK and M. S. ATIYA	127 The analysis of deformed belemnites 137 Sizes of submarine slides and their significance 143 Tectonic significance of mesofracture systems associated with the Lebanese segment of the Dead Sea transform fault
S. S. HANNA and N. FRY	155 A comparison of methods of strain determination in rocks from southwest Dyfed (Pembrokeshire) and adjacent areas
A. M. BELL	163 Factorization of finite strains in three dimensions—a computer method 169 Book Reviews
	Number 3
D. J. SANDERSON	171 The transition from upright to recumbent folding in the Variscan fold belt of southwest England: a model based on the kinematics of simple shear
G. D. WILLIAMS and T. J. CHAPMAN D. R. GRAY	181 The geometrical classification of noncylindrical folds 187 Geometry of crenulation-folds and their relationship to crenulation cleavage
C. A. BOULTER	207 On the production of two inclined cleavages during a single folding event; Stirling Range, S.W. Australia
N. FRY	221 Density distribution techniques and strained length methods for determination of finite strains
A. R. ALLEN C. N. WINSOR	231 Mechanism of frictional fusion in fault zones 245 The correlation of fracture directions with sediment anisotropy in folded rocks of the Delamerian fold belt at Port Germein gorge, South Australia
	255 Book Reviews
	Number 4
M. P. COWARD and J. S. WHALLEY	259 Texture and fabric studies across the Kishorn Nappe, near Kyle of Lochalsh, Western Scotland
L. D. MINNIGH	275 Structural analysis of sheath-folds in a meta-chert from the Western Italian Alps
G. S. LISTER and P. F. WILLIAMS	283 Fabric development in shear zones: theoretical controls and observed phenomena
D. FLINN N. J. MILTON and T. J. CHAPMAN	299 The deformation matrix and the deformation ellipsoid 309 Superposition of plane strain on an initial sedimentary fabric: an example from Laksefjord, North Norway
R. J. LISLE	317 The representation and calculation of the deviatoric component of the geological stress tensor
M. J. WATTS and G. D. WILLIAMS	323 Fault rocks as indicators of progressive shear deformation in the Guingamp region, Brittany
S. WHITE	333 Large strain deformation: report on a Tectonic Studies Group discussion meeting held at Imperial College, London on 14 November 1979
	341 Book Reviews 345 Referees for Volume 1
