

FORTHCOMING PAPERS

- G. E. LLOYD and C. C. FERGUSON:** Boudinage structure: some new interpretations based on elastic-plastic finite element simulations
- R. F. BERRY and A. E. GRADY:** Deformation and metamorphism of the Aileu Formation, north coast, East Timor, its tectonic significance
- D. J. SANDERSON and W. A. MENEILLY:** Analysis of three-dimensional strain modified uniform distributions; andalusite fabrics from a granite aureole
- J. GROCOTT:** Fracture geometry of pseudotachylyte generation zones: a study of shear fractures formed during seismic events
- R. G. PARK:** Report on the Tectonic Studies Group A.G.M. 18-19 December 1980 University of Keele
- F. L. LADEIRA and N. J. PRICE:** Relationship between fracture spacing and bed thickness
