

DIARY

The idea of a Diary of International events in Structural Geology initiated from discussion with Richard Lisle, David Gray, John Whalley, myself, and Peter Henn at Pergamon. The *Diary* will be an annual service feature of the *Journal of Structural Geology*, compiled from details received by the Editors. This first *Diary* was principally derived from the new *European Tectonics Newsletter* (no 1), compiled by John Whalley, current secretary of U.K. TSG. Details for inclusion in forthcoming *Diaries* should be sent to me during the first quarter of the year. European groups who wish to have their details included in the *European Tectonics Newsletter* should contact J. S. Whalley, Department of Geology, Portsmouth Polytechnic, Portsmouth PO1 3QL, U.K.
