Aims and Scope

This international English-language journal publishes original research and review articles in structural geology and tectonics. All features and processes of deformation in rocks are considered, at any scale. Specific topics include natural structures such as folds, fractures and fabrics, structural associations in orogenic belts, strike-slip zones and extensional regimes, strain analysis, and theoretical and experimental modelling. Regional structural accounts should be of broad rather than local interest, or of a thematic nature. There is an express *Brevia* section for short notes, discussion/reply items, book reviews and a diary. The journal publishes occasional thematic or conference special issues.

Subscriptions

All subscription enquiries should be addressed to: The Subscriptions Fulfillment Manager, Subscriptions Dept., Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW.

Annual Subscription Rates (1991): Annual Institutional Subscription rate (1991) DM 675.00. Two year institutional rate (1991/92) DM 1282.50. Personal subscription rate for those whose library subscribes at the regular rate is available on request. Subscription rates for Japan include despatch by air and prices are available on application. Prices are subject to change without notice.

Back Issues. Back issues of all previously published volumes, in both hard copy and on microform, are available direct from Pergamon Press offices.

Publishing and Advertising Offices. Headington Hill Hall, Oxford OX3 0BW, England (Oxford 64881). Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.
