Westaway, R. & Kuszniir, N. 1993. Fault and bed 'rotation' during continental extension: block rotation or vertical shear? *J. Struct. Geol.* **15**, 753–770.

As a result of a typographical error during preparation of proofs, equation (9) in the above paper was incorrectly stated. Its correct form is:

$$\tan(\theta) = \frac{\tan(\psi)[1 + \tan^2(\delta_o)]}{1 + \tan(\delta_o) \tan(\psi)}. \quad (9)$$

The derivation of equations (10) and (11) is obvious when the correct form of equation (9) is used. The results and conclusions are unaffected by the misprint.
