

ERRATUM

“The high temperature static recovery and recrystallization behaviour of cold-worked Carrara marble” by S. J. Covey-Crump (*Journal of Structural Geology* **19**, 225–241, 1997).

As a result of typographical errors during preparation of proofs, equations (8) and (10) in the above paper were incorrectly stated. The correct forms of the equations are

$$\sigma = \sigma^* \exp[-(\dot{\epsilon}^*/\dot{\epsilon})^\lambda], \quad (8)$$

$$0 = \ln \sigma^* - \ln \sigma - [(f_0/\dot{\epsilon}) \exp(-H/RT)]^\lambda [G]^{-\lambda m} [\sigma^*]^{\lambda m}. \quad (10)$$

The results were derived using the correct forms of the equations and so are unaffected by the misprints.
