The Publisher wishes to apologise on behalf of the Typesetter for a few typographical errors which occurred in the above paper.

1. P. 95, Section 2.1, paragraph 1. In the sentence that reads "Natural deformation at increased temperatures produces straight thick Type **III** twins at 150–300°C, curved thick twins and irrational (Turner and Orozco, 1976) twins (Type **HI** microstructures)…" **III** needs to be replaced by **II**; **HI** needs to be replaced by **III**.
2. P. 97, Table 1 (b) title. In the line that reads "(b) Eastern Northern Range **E–W striking**" The phrase **E–W striking** needs to be omitted.
3. P. 103, Section 6, paragraph 4, column 2, sentence 2. In the sentence that reads "Frey et al. (1988) report prehnite-**purnpellyite**…" **purnpellyite** needs to be replaced by **pumpellyite**.
4. P. 104, Fig. 9 (a) caption, sentence 3. In the sentence that reads "Deformation temperatures inferred from each type are: I (<200°C), II (>**1500**°C),…" **1500**°C needs to be replaced by **150**°C.
5. P. 108, column 2. In the sentence that reads "Recent geodetic results (Weber et al., 1999, 2000) show that the Central Range fault is currently the active (**14 ± mm/y**)…" **14 ± mm/y** needs to be changed to **14 ± 2 mm/yr**.
