Publishers Note

Dear Colleague,

As announced in the Publishers Note in JSG 24(12), I am happy to present you with our new list of Editors, being

Tom Blenkinsop
David Ferrill
Joao Hippertt
Richard Norris
Cees Passchier

Each of these five Editors will be autonomously responsible for carrying out the review process and for taking decisions on acceptance, revision and rejection. Needless to say, these Editors will regularly consult with one another.

It is the author's decision to select their Editor of choice, after having checked the availability of the Editor by e-mail.

Please note, in the case of absence or overload, papers may (have to) be transferred from one to another.

A centralised database, coupled to an electronic submission system (under development), will ensure transparency as well as quick and easy communication among the Editors.

From this position I would also like to extend my sincere thanks, on behalf of Elsevier Science, to Richard Lisle, who has been an Associate Editor for the journal for almost 12 years, and Don Fisher, who has been an Associate Editor for five years. Both have decided to devote their scarce spare time to other matters.

Please see the journal's website (<http://www.elsevier.com/locate/jsg>), Geophysion, or Editorials in the journal for the ongoing developments.

Karel Nederveen
Elsevier Science
Senior Publishing Editor Earth Sciences
