"JOURNEES DE CALORIMETRIE ET D'ANALYSE THERMIQUE"

Torino (Italy), 28 – 30 June 1978

A Symposium on calorimetry and thermal analysis, J.C.A.T. '78, will be held from 28 to 30 June 1978 in Turin (Italy). The meeting is being co-organized by the "Association Française de Calorimétrie et d'Analyse thermique" (A.F.C.A.T.) and by the Italian Group of "International Confederation for Thermal Analysis" (I.C.T.A.).

The themes of J.C.A.T. '78 are:

1. Thermochemistry of interactions at the interfaces.
2. Thermochemistry of transformations in materials.
3. Thermochemistry of systems of biological interest.

The scientific sessions will be open by plenary lectures. The number of papers is limited to 36, with 20 minutes time allowed including discussion. The papers may be given in English language. All submitted papers will be acknowledged and subjected to referring before acceptance. Reprints of conferences and papers will be available before the meeting.

During the Symposium the E. Calvet award, recently founded by the A.F.C.A.T. will be assigned. An exhibition of apparatus for calorimetry, thermal analysis and data processing, is also planned.

Registrations and paper abstracts have to be sent no later than February 28, 1978, using the forms available from the Symposium Secretariat.
