

**INTERNATIONAL CONFEDERATION  
FOR THERMAL ANALYSIS  
9TH INTERNATIONAL CONGRESS  
ON THERMAL ANALYSIS**

JERUSALEM, ISRAEL, AUGUST, 21-26, 1988

The objective of the congress is to bring together those involved in research and applications of the techniques used in thermal analysis. It is hoped that it will help to assess the present state of these areas of specialization and to evaluate a unified formula for the future.

We expect this goal to be achieved by oral presentations, posters, symposia and workshops. Various aspects of thermal analysis and calorimetry in research and production will be discussed, including:

- Theory
- Application
- Instrumentation
- Chemistry: Inorganic, Organic, Solid State, Pyrolysis, Heterogenous Catalysis
- Polymers
- Physics: Thermophysics, Thermally Stimulated Processes (TL, TSC, TPD, TSD, etc.)
- Earth Science: Geochemistry, Clay Minerals
- Mining Engineering
- Agriculture, Pedology
- Biology
- Medical Science, Pharmaceuticals
- Metallurgy, Ceramics, Plastics, Oil and Petroleum, Glass, Cement Coal.

For further information write to  
Prof M. Steinberg — Chairman  
of 9th ICTA International  
Congress on Thermal Analysis  
Department of Inorganic  
and Analytical Chemistry

**INTERNATIONAL SYMPOSIUM ON POLYMERS,  
PLASTICS AND RUBBER PROCESSING TECHNOLOGY**

TORONTO, CANADA, JUNE 16-17, 1988

**INTERNATIONAL CONFERENCE ON POLYMERS,  
PLASTICS AND RUBBER PROCESSING TECHNOLOGY**

BOMBAY, INDIA, NOVEMBER 3-4, 1988

Papers dealing with all aspects of research activities, processing, laboratory technologies/production, services e.g. applications-research and development, elastomers, machinery and equipment, marketing, polyurethanes, raw materials, and reinforced and composites are now being solicited.

- Plastics Processing/Recycling Machinery
- Organic & Inorganic Colour Concentrates
- Selective Base Polymers
- Extrusion Machines
- Injection Moulding
- Welding
- Blow-Moulding
- Plastic Dies
- FRP Pipes
- Rotational Moulding
- Compression Moulding
- PVC Compounds and Machines
- Extruders
- Film Extrusion
- Corrugated Products
- Household Applications
- Thermoforming Machines
- Plastic Sacks, Bags, Films, Sheets and Board Machines
- Raw Materials e.g. polyethylene, polypropylene, PVC, polystyrene, thermosets, etc.
- Recycling Machines
- Structural Foams
- Machinery, hydraulic presse, complete lines

- Reclaimed Materials
- Printing Machines
- Film Recycling Machines, etc. etc.

**DEADLINE FOR COMPLETE PAPERS: MAY 15, 1988**

Please send your papers to: Dr. Vijay M. Bhatnagar
