The China Ordnance Society and the International Pyrotechnics Society announce

**The Second Beijing International Symposium on Pyrotechnics and Explosives Combined with  
The Seventeenth International Pyrotechnics Seminar**

BELING, PEOPLE'S REPUBLIC OF CHINA, OCTOBER 28-31, 1991

**SCOPE OF THE SEMINAR:** The aim of the Symposium is to provide an up-to-date comprehensive assessment of recent progress in the field of pyrotechnics and explosives. Emphasis will be given to both fundamental aspects and technical approaches, including the following:

- (1) Compositions and devices producing heat, light, sound, smoke, gas, etc.;
- (2) Synthesis of energetic materials;
- (3) Composite explosives and their technology;
- (4) Thermal decomposition, stability, and explosion;
- (5) Initiation, combustion, deflagration, detonation, and their effects;
- (6) Sensitivity, reliability, and safety;
- (7) Methods and devices for analytical and experimental research and development;
- (8) Production and manufacturing operations involving materials, devices processes, etc.;
- (9) Miscellaneous.
