

Coming Events

Thermal Analysis '91 An integrated course with international keynote speakers

will be held in LEEDS (U.K.) on SEPTEMBER 12–13TH 1991.

The course which is being organised by the **Thermal Analysis Consultancy Service** will be presented two parts:

Part 1 will cover recent advances in DSC, DTA, TG, thermomechanical methods, evolved gas analysis and complementary thermal techniques.

Part 2 will provide an inter-disciplinary approach to the application of thermal methods. Topics to be covered include catalysts, polymers, pharmaceuticals, metallurgy and materials science, constant rate thermal analysis and the role of quality assurance in the TA Laboratory.

The keynote Speakers are: Prof. D. Dollimore (Toledo University, USA), Prof. S. Warne (Newcastle University , Australia)

Other invited Speakers include: Prof. P. Barnes, Prof. E. Charsley, Mr. M. Hardy, Dr. J. Hay, Dr. P. Laye, Dr. M. Reading, Prof. F. Sale, Dr. S. Warrington and Mr. P. Willcocks.

There will be a comprehensive exhibition of thermal analysis equipment.

Further information please contact Prof. E. L. Charsley, Leeds Polytechnic, Leeds LS1 3HE. Phone: 0532 833121/2 Fax: 0532 833120
