

## **LIST OF PUBLICATIONS OF ANDREW KNOX GALWEY**

- 1 A. K. Galwey and P. W. M. Jacobs, *Proc. Roy. Soc.*, A254, (1960) 455–469.  
The thermal decomposition of ammonium perchlorate at low temperatures.
- 2 A. K. Galwey and P. W. M. Jacobs, *J. Chem. Soc.*, (1959) 837–844.  
High temperature thermal decomposition of ammonium perchlorate.
- 3 A. K. Galwey and P. W. M. Jacobs, *Trans. Faraday Soc.*, 56 (1960) 581–590.  
The thermal decomposition of ammonium perchlorate in the presence of carbon.
- 4 A. K. Galwey and P. W. M. Jacobs, *Trans. Faraday Soc.*, 55 (1959) 1165–1172.  
The thermal decomposition of ammonium perchlorate in the presence of manganese dioxide.
- 5 A. K. Galwey and P. W. M. Jacobs, *J. Chem. Soc.*, (1960) 5031–5033.  
The thermal explosion of ammonium perchlorate.
- 6 A. K. Galwey and C. Kemball, *Trans. Faraday Soc.*, 55 (1959) 1959–1969.  
Dissociative adsorption of hydrocarbons on a supported nickel adsorbent.
- 7 A. K. Galwey and C. Kemball, Second International Congress on Catalysis. Paris, July 1960.  
Paper 50. pp. 1063–1082.  
Use of catalytic exchange with deuterium to study breakdown of molecules adsorbed on nickel.
- 8 J. Erkelens, A. K. Galwey and C. Kemball, *Proc. Roy. Soc.*, A260 (1961) 273–292.  
The deuteration of some cyclic olefins on iron and other transition metal films.
- 9 J. Erkelens, C. Kemball and A. K. Galwey, *Trans. Faraday Soc.*, 59 (1963) 1181–1191.  
Some reactions of cyclohexene with hydrogen and deuterium on evaporated gold films.
- 10 R. L. Wilson, C. Kemball and A. K. Galwey, *Trans. Faraday Soc.*, 58 (1962) 583–592.  
Catalytic exchange of hydrogen sulphide and of hydrogen with deuterium on disulphides of molybdenum and tungsten.
- 11 A. K. Galwey, *J. Chem. Education*, 37 (1960) 98–99.  
Thermal decomposition of potassium permanganate. A high vacuum experiment for students.
- 12 A. K. Galwey, *Chemistry and Industry*, (1960) 1417–1418.  
Gas chromatographic analysis of hydrogen-methane mixtures using the radioactive ionization detector.
- 13 A. K. Galwey, *Talanta*, 10 (1963) 310–314.  
The use of the argon chromatograph in the determination of carbon in steel.
- 14 A. K. Galwey, *Talanta*, 9 (1962) 1043–1052.  
Application of the radioactive ionization detector to the determination of permanent gases by gas chromatography and some uses in studies of chemical kinetics.
- 15 A. K. Galwey, *Proc. Roy. Soc.*, A271, (1963) 218–242.  
Adsorption and desorption of hydrocarbons on a supported nickel cracking catalyst.
- 16 A. K. Galwey, *Trans. Faraday Soc.*, 59 (1963) 503–514.  
Reactions and properties of organic compounds chemisorbed on a supported nickel cracking catalyst.
- 17 A. K. Galwey, *J. Catalysis*, 1 (1962) 227–234.  
A kinetic investigation of the reaction of nickel carbide with hydrogen.

- 18 A. K. Galwey, *J. Catalysis*, 2 (1963) 176–188.  
The reactions of nickel carbide with a number of hydrogen containing or oxygen containing gaseous compounds.
- 19 J. Freel and A. K. Galwey, Second Symposium of Catalysis of the Canadian Institute of Chemistry, Hamilton, Ontario, June 1967. 4p.  
Hydrocarbon cracking over nickel carbide.
- 20 J. Freel and A. K. Galwey, *J. Catalysis*, 10 (1968) 277–289.  
Hydrocarbon cracking reactions on nickel.
- 21 J. Freel and A. K. Galwey, *Nature*, 208 (1965) 182–184.  
A preparation of cementite.
- 22 A. K. Galwey, *J. Catalysis*, 4 (1965) 697–703.  
The thermal decomposition of nickel phthalate.
- 23 A. K. Galwey, *J. Chem. Soc.*, (1965) 4235–4240.  
The thermal decomposition of basic ferric salts of benzoic and of phthalic acids.
- 24 A. K. Galwey, *J. Chem. Soc.*, (1965) 6188–6194.  
The thermal decomposition of nickel benzoate and of the nickel salt of cyclohexanecarboxylic acid.
- 25 R. J. Acheson and A. K. Galwey, *J. Chem. Soc. A*, (1967) 1174–1178.  
The thermal decomposition of nickel terephthalate and nickel salts of other carboxylic acids.
- 26 A. K. Galwey, *J. Chem. Soc.*, (1965) 5433–5438.  
The thermal decomposition of salts of mellitic acid. Part 1. Aluminium mellitate and natural mellite.
- 27 A. K. Galwey, *J. Chem. Soc. A*, (1966) 87–90.  
The thermal decomposition of salts of mellitic acid. Part 2. Ferric, cobalt and nickel salts of mellitic acid.
- 28 R. J. Acheson and A. K. Galwey, *J. Chem. Soc. A*, (1967) 1167–1173.  
The thermal decomposition of salts of mellitic acid. Part 3. Chromic, manganous, cupric and zinc mellitate.
- 29 R. J. Acheson and A. K. Galwey, *J. Chem. Soc. A*, (1968) 942–946.  
The thermal decomposition of salts of mellitic acid. Part 4. Silver mellitate.
- 30 R. J. Acheson and A. K. Galwey, *J. Chem. Soc. A*, (1968) 1125–1128.  
The thermal decomposition of salts of mellitic acid. Part 5. Nickel-cobalt mixed mellitates.
- 31 K. A. Jones, R. J. Acheson, B. R. Wheeler and A. K. Galwey, *Trans. Faraday Soc.*, 64 (1968) 1887–1897.  
The thermal decomposition of nickel malonate.
- 32 R. J. Acheson and A. K. Galwey, *J. Inorg. Nucl. Chem.*, 30 (1968) 2383–2391.  
The thermal decomposition of cobalt phthalate and some observations on the decomposition of cobalt benzoate.
- 33 A. K. Galwey, *Kinetics and Catalysis*, 10 (1969) 767–776. In russian.  
A discussion of the factors which control the mechanism of, the rate of and the energy barrier to the thermal decomposition of transition metal salts of carboxylic acids.
- 34 R. A. F. Sherriff and A. K. Galwey, International Symposium on Reaction Mechanisms of Inorganic Solids, Aberdeen (Chem. Soc.) 1966. Paper 8–6. (4 pages).  
The thermal decomposition of nickel hexamine perchlorate.
- 35 R. A. F. Sherriff and A. K. Galwey, *J. Chem. Soc. A*, (1967) 1705–1708.  
The thermal decomposition of hexamine nickel perchlorate.

- 36 J. Freel and A. K. Galwey, International Symposium on Reaction Mechanisms of Inorganic Solids, Aberdeen (Chem. Soc.) 1966. Paper 3–5. (4 pages).  
Oxidation of nickel carbide.
- 37 J. Freel and A. K. Galwey, *Trans. Faraday Soc.*, 63 (1967) 404–414.  
Kinetic study of nickel carbide oxidation.
- 38 A. K. Galwey, Book published by Chapman and Hall Ltd., 1967, pp. 0–210  
Chemistry of Solids
- 38a A. K. Galwey, Book published by Hirokawa Pub. Co., 1969.  
Chemistry of Solids (Japanese translation).
- 39 A. K. Galwey, *J. Catalysis*, 4 (1965) 34–42.  
Kinetics of the desorption of aromatic hydrocarbons during the thermal decomposition of organic radicals adsorbed on the surface of nickel oxide.
- 40 A. K. Galwey, *Proc. Third Internat. Congress on Catalysis, Amsterdam 1964*. pp. 791–803.  
A kinetic study of hydrocarbon formation reactions occurring during the desorption of certain alcohols from iron and nickel oxides.
- 41 A. K. Galwey, *J. Catalysis*, 12 (1968) 352–360.  
A kinetic investigation of the formation of benzene on heating long-chain saturated aliphatic alcohols on ferric oxide.
- 42 A. K. Galwey and K. A. Jones, *Nature*, 193 (1962) 471–472.  
Inclusions in garnets.
- 43 A. K. Galwey and K. A. Jones, *J. Chem. Soc.*, (1963) 5681–5686.  
An attempt to determine the mechanism of a natural mineral forming reaction from examination of the products.
- 44 K. A. Jones and A. K. Galwey, *Geol. Mag.*, 101 (1964) 76–93.  
A study of possible factors concerning garnet formation in rocks from Ardara, Co. Donegal, Ireland.
- 45 A. K. Galwey and K. A. Jones, *Geol. Mag.*, 103 (1966) 143–152.  
Crystal size frequency distribution in garnets in some analyzed metamorphic rocks from Mallaig, Inverness, Scotland.
- 46 K. A. Jones and A. K. Galwey, *Quart. J. Geol. Soc.*, 122 (1966) 29–44.  
Size distribution, composition and growth kinetics of garnet crystals in some metamorphic rocks from the West of Ireland.
- 47 A. K. Galwey, *Nature*, 223 (1969) 1257–1260.  
Heterogeneous reactions in petroleum genesis and maturation.
- 48 A. K. Galwey, *J. Chem. Soc. D.* (1969) 577–578.  
Reactions of alcohols adsorbed on montmorillonite and the role of minerals in petroleum genesis.
- 49 A. K. Galwey, Chemical Society Autumn Meeting (Southampton), September 1969. Paper A - 28 (2 pages).  
Reactions on mineral surfaces as a contributory process in petroleum genesis.
- 50 I. Milligan and A. K. Galwey, *Education in Chemistry*, 6 (1969) 154–155.  
Interesting parents in science careers.
- 51 A. K. Galwey, K. A. Jones and R. S. Beckett, *J. Applied Chem.*, 16 (1966) 159–162.  
Observations on the relatively high strength of a chalk-aggregate concrete.
- 52 B. R. Wheeler, J. Freel and A. K. Galwey, *Trans. Faraday Soc.*, 66 (1970) 1015–1024.  
Kinetic study of the oxidation of the carbides of iron.
- 53 M. J. McGinn, B. R. Wheeler and A. K. Galwey, *Trans. Faraday Soc.*, 66 (1970) 1809–1816.  
Thermal decomposition of nickel fumarate.

- 54 A. K. Galwey, *J. Catalysis*, 19 (1970) 330–342.  
Reactions of alcohols and hydrocarbons on a montmorillonite surface.
- 55 M. J. McGinn, B. R. Wheeler and A. K. Galwey, *Trans. Faraday Soc.*, 67 (1971) 1480–1488.  
Thermal decomposition of nickel maleate.
- 56 L. Tournayan, H. Charcosset, B. R. Wheeler, M. J. McGinn and A. K. Galwey, *J. Chem. Soc., A*, (1971) 868–871.  
Growth of nuclei during thermal decomposition of nickel oxalate.
- 57 K. A. Jones and A. K. Galwey, *J. Geology*, 80 (1972) 112–120.  
Variation of length/thickness ratio of biotite crystals in metamorphic rocks.
- 58 K. A. Jones and A. K. Galwey, *J. Geology*, 81 (1973) 236–238.  
Variation of length/thickness ratio of biotite crystals in metamorphic rocks: a reply.
- 59 K. A. Jones, G. J. Morgan and A. K. Galwey, *Chem. Geol.*, 9 (1972) 137–143.  
The significance of the size distribution function of crystals formed in metamorphic reactions.
- 60 A. K. Galwey, *Geochim. Cosmochim. Acta*, 36 (1972) 1115–1130.  
The rate of hydrocarbon desorption from mineral surfaces and the contribution of heterogeneous catalytic-type processes to petroleum genesis.
- 61 A. K. Galwey, M. J. McGinn and M. E. Brown, *Proc. 7th Internat. Symp. Reactivity of Solids*, Bristol, 1972, (Chapman and Hall, London) pp. 431–445.  
Nucleation and growth of particles of nickel during the thermal decomposition of nickel formate.
- 62 A. K. Galwey and P. Gray, *Proc. 7th Internat. Symp. Reactivity of Solids*, Bristol, 1972, (Chapman and Hall, London) pp. 733–744.  
Self-heating during the surface oxidation of pyrophoric iron.
- 63 A. K. Galwey and P. Gray, *J. Chem. Soc., Faraday Trans. I*, 68 (1972) 1935–1946.  
Oxidation of a pyrophoric iron I. Kinetics of chemisorption of oxygen on the finely divided iron-carbon substrate.
- 64 M. C. Wilson and A. K. Galwey, *Nature*, 243 (1973) 402–404.  
Compensation effect in heterogeneous catalysis including hydrocarbon formation on clays.
- 65 B. R. Wheeler and A. K. Galwey, *J. Chem. Soc., Faraday Trans. I*, 70 (1974) 661–670.  
Decomposition reactions of nickel formate, nickel malonate, nickel maleate and nickel fumarate in oxygen.
- 66 A. K. Galwey and P. Gray, *J. Chem. Soc., Faraday Trans. I*, 70 (1974) 1018–1032.  
Oxidation of a pyrophoric iron. II. Direct measurement of self-heating accompanying chemisorption of oxygen on the finely divided iron-carbon substrate.
- 67 M. E. Brown, D. Dollimore and A. K. Galwey, *J. Chem. Soc., Faraday Trans. I*, 70 (1974) 1316–1324.  
Thermal decomposition of manganous oxalate in vacuum and in oxygen.
- 68 D. M. Jamieson and A. K. Galwey, *J. Catalysis*, 34 (1974) 156–158.  
Mobility of copper metal during heterogeneous catalytic decomposition of formic acid.
- 69 A. K. Galwey, D. M. Jamieson, M. Le Van and C. Berro, *Thermochim. Acta*, 10 (1974) 161–176.  
The preparation, properties, crystal lattice and thermal decomposition reactions of cobalt malonate dihydrate.
- 70 A. K. Galwey, D. M. Jamieson, B. R. Wheeler and R. Reed, *Corrosion Science*, 14 (1974) 527–532.  
The oxidation of cementite.
- 71 A. K. Galwey, D. M. Jamieson and M. E. Brown, *J. Phys. Chem.*, 78 (1974) 2664–2670.  
Thermal decomposition of three crystalline modifications of copper(II) formate.

- 72 A. K. Galwey, *International Review of Science: Inorganic Chemistry, Series 2, Volume 10* (Editor L. E. J. Roberts) (Butterworth: London), Chap. 5, 1975, pp. 147–179.  
Decomposition reactions of solids.
- 73 K. A. Jones, M. J. Wolfe and A. K. Galwey, *Contrib. Mineral. Petrol.*, 51 (1975) 283–296.  
Kinetics of calcite recrystallization at two dykes in Co. Antrim, Northern Ireland.
- 74 D. Dollimore, A. K. Galwey and G. Rickett, *J. Chim. Phys.*, 72 (1975) 1059–1064.  
Adsorption and reactivity of some sulphur-containing compounds on a mixed-oxide 'Cobalt Molybdate' type catalyst.
- 75 A. K. Galwey, D. M. Jamieson, M. E. Brown and M. J. McGinn, 'Kinetics of reactions in heterogeneous systems, ed. P. Barret, Elsevier 1975, pp. 520–537.  
The mechanisms of the solid phase thermal decomposition reactions of some transition metal carboxylates.
- 76 M. C. Wilson and A. K. Galwey, *J. Chim. Phys.*, 73 (1976) 441–446.  
Reactions of stearic acid, of *n*-dodecanol and of cyclohexanol on the clay minerals illite, kaolinite and montmorillonite.
- 77 M. E. Brown, D. Dollimore and A. K. Galwey, *Proc. 1st European Symp. on Thermal Anal.* Salford, 1976. Ed. D. Dollimore, Heyden (London) 1976, pp. 248–251.  
A thermochemical investigation of the decomposition of manganese(II) oxalate dihydrate.
- 78 K. A. Jones, M. J. Wolfe and A. K. Galwey, *Proc. 1st European Symp. on Thermal Anal.* Salford, 1976. Ed. D. Dollimore, Heyden (London) 1976, pp. 344–347.  
A theoretical analysis of the recrystallization of natural calcite under non-isothermal conditions.
- 79 A. K. Galwey, *Advances in Catalysis*, 26 (1977) 247–322.  
Compensation effect in heterogeneous catalysis.
- 80 M. E. Brown, B. Delmon, A. K. Galwey and M. J. McGinn, *Reactivity of Solids, Proc. 8th Symp. (Gothenburg 1976)*. (Ed. J. Wood, Q. Lindqvist, C. Helgesson and N.-G. Vannerburg). Plenum Press, New York 1977, pp. 221–226.  
Nucleation process in the decomposition of nickel formate.
- 81 M. E. Brown, D. Dollimore and A. K. Galwey, *Thermochim. Acta*, 21 (1977) 103–110.  
The thermochemistry of the decomposition of manganese(II) oxalate dihydrate.
- 82 M. E. Brown, B. Delmon, A. K. Galwey and M. J. McGinn, *J. Chim. Phys.*, 75 (1978) 147–158.  
Nucleus formation and the kinetics of thermal decomposition of nickel formate.
- 83 A. K. Galwey and M. E. Brown, *Proc. Roy. Irish Acad.*, B77 (1977) 465–471.  
A differential calorimetric study of the thermal decomposition of nickel formate.
- 84 D. A. Brown, W. Cocker and A. K. Galwey, (Editorial Advisory Board), *Proc. of the Royal Irish Academy*, vol. B77, 1977, pp. 307–546.  
Papers Contributed by Chemists in Ireland in Celebration of the Centenary of the Royal Institute of Chemistry (1877–1977).
- 85 A. K. Galwey and G. G. T. Guarini, *J. Chem. Soc., Chem. Commun.*, (1978) 273–274.  
The role of stress in nucleus development during dehydration of certain alums.
- 86 A. K. Galwey and W. J. Hood, *J. Phys. Chem.*, 83 (1979) 1810–1815.  
Thermal decomposition of sodium carbonate perhydrate in the solid state.
- 87 G. G. T. Guarini, R. Spinicci and A. K. Galwey, *Proc. Conf. Calorimetry and Thermal Analysis* (Turin, June 1978). Italian Chemical Society, vol. B12, pp. 89–95.  
Aspects of the dehydration and of the rehydration of surface layers of crystal hydrates.

- 88 M. E. Brown, D. Dollimore and A. K. Galwey, *Comprehensive Chemical Kinetics* (Ed. Bamford and Tipper), Elsevier, Amsterdam 1980, vol. 22, pp. 0–340.  
Decomposition and Interaction of Inorganic Solids.
- 88a Russian translation of previous publication, MIR, Moscow 1983, pp. 0–360.
- 89 D. Dollimore, T. E. Jones and A. K. Galwey, *Surface Technology*, 8 (1979) 483–490.  
The adsorption and decomposition of methanol on a supported nickel oxide oxidation catalyst.
- 90 A. K. Galwey, K. A. Jones, R. Reed and D. Dollimore, *Mineralogical Magazine*, 43 (1979) 243–250.  
The blue colouration in banded fluorite (Blue John) from Castleton, Derbyshire, England.
- 91 M. E. Brown and A. K. Galwey, *Thermochim. Acta*, 29 (1979) 129–146.  
Distinguishability of selected kinetic models for isothermal solid state reactions.
- 92 A. K. Galwey and M. E. Brown, *J. Catalysis*, 60 (1979) 335–338.  
Compensation parameters in heterogeneous catalysis.
- 93 A. K. Galwey, R. Reed and G. G. T. Guarini, *Nature*, 283 (1980) 52–54.  
Observations on internal structures of chrome alum dehydration nuclei.
- 94 M. E. Brown, A. K. Galwey and M. Le Patourel, *Proc. 6th Int. Conf. Thermal Analysis*, vol. 2, Bayreuth 1980, pp. 153–158.  
Thermal decomposition of nickel(II) squarate.
- 95 G. G. T. Guarini, R. Spinicci and A. K. Galwey, *Proc. 6th Int. Conf. Thermal Analysis*, vol. 2 Bayreuth 1980, pp. 217–222.  
Thermal and microscopic analysis of the reactivity of alum surfaces towards gaseous ammonia.
- 96 B. J. Auret and A. K. Galwey, *Chemistry in Britain*, 17 (1981) 395.  
Talking Point: Careers: what do school pupils think?
- 97 A. K. Galwey, R. Spinicci and G. G. T. Guarini, *Proc. Roy. Soc.*, A378 (1981) 477–505.  
Nucleation and growth processes occurring during the dehydration of certain alums: the generation, the development and the function of the reaction interface.
- 98 A. K. Galwey and M. E. Brown, *J. Chem. Soc., Faraday Trans. I*, 78 (1982) 411–424.  
Thermal decomposition of nickel squarate dihydrate,  $\text{NiC}_4\text{O}_4 \cdot 2\text{H}_2\text{O}$ .
- 99 A. K. Galwey and L. Pöppel, *Nature*, 294 (1981) 434–436.  
The role of liquid halogen in the reaction of crystalline KBr with gaseous  $\text{Cl}_2$ .
- 100 M. E. Brown, R. H. M. Cross, A. K. Galwey and R. Reed, *Proc. Electron Microscopy Society of South Africa*, 11 (1981) 37–38.  
Electron microscopic evidence for solid decomposition mechanisms.
- 101 Sundara Rajam and A. K. Galwey, *J. Chem. Soc., Faraday Trans. I*, 78 (1982) 2553–2561.  
Thermal decomposition of ammonium chromate.
- 102 A. K. Galwey and W. J. Hood, *J. Chem. Soc., Faraday Trans. I*, 78 (1982) 2815–2827.  
Thermal decomposition of sodium carbonate perhydrate in the presence of liquid water.
- 103 A. K. Galwey, *Proc. 7th International Conf. Thermal Analysis*, Wiley-Heyden 1982, pp. 38–53.  
Plenary Lecture: The interpretation of solid state kinetics.
- 104 M. E. Brown and A. K. Galwey, *Proc. 7th International Conf. Thermal Analysis*, Wiley-Heyden 1982, pp. 58–64.  
Kinetics of solid state reactions from isothermal rate-time curves.
- 105 N. J. Carr, A. K. Galwey and W. Swindall, *Proc. 7th International Conf. Thermal Analysis*, Wiley-Heyden 1982, pp. 443–9.

- The complementary use of thermal analysis, electron microscopy and product-yield-time data to investigate possible melting during the decomposition of copper(II) malonate.
- 106 A. K. Galwey, G. G. T. Guarini and R. Spinicci, Proc. 9th International Symposium on Reactivity of Solids, Elsevier 1982, pp. 397–401.  
Reaction between ammonia gas and chrome alum ( $\text{KCr}(\text{SO}_4)_2 \cdot 12\text{H}_2\text{O}$ ) cleaved crystal surfaces.
- 107 M. E. Brown, G. G. T. Guarini, R. Reed and A. K. Galwey, Proc. 9th International Symposium on Reactivity of Solids, Elsevier 1982, pp. 862–66.  
Form and function of nuclei in decompositions of solids.
- 108 A. K. Galwey and M. E. Brown, Proc. 9th International Symposium on Reactivity of Solids, Elsevier 1982, pp. 893–897.  
Thermal decomposition of nickel squarate.
- 109 A. K. Galwey, L. Pöpl and Sundara Rajam, J. Chem. Soc., Faraday Trans. I, 79 (1983) 2143–2151.  
The mechanistic significance of melt formation during the thermal decomposition of ammonium dichromate.
- 110 Z. G. Szabó, S. Perczel, M. Gábor, G. Zsolt and A. K. Galwey, Thermochim. Acta, 64 (1983) 167–178.  
The role of magnesia and of alumina in promoting the nitridation of magnesium and of aluminium.
- 111 A. K. Galwey, J. Catalysis, 84 (1983) 270–272.  
Comments on the theoretical explanation of compensation behaviour.
- 112 A. K. Galwey and L. Pöpl, Phil. Trans. Roy. Soc., A311 (1984) 159–183.  
The development and the function of the interface participating in the nucleation and growth reaction between crystalline potassium bromide and chlorine gas.
- 113 A. K. Galwey and M. A. Mohamed, J. Chem. Soc., Chem. Commun., (1984) 1197–1198.  
The formation of  $\text{NO}_2\text{ClO}_4$  as an intermediate during the low temperature thermal decomposition of ammonium perchlorate.
- 114 A. K. Galwey and M. A. Mohamed, Nature, 311 (1984) 642–645.  
Nitryl perchlorate as the essential intermediate in the thermal decomposition of ammonium perchlorate.
- 115 N. J. Carr and A. K. Galwey, Thermochim. Acta, 79 (1984) 323–370.  
Decomposition reactions of solids (An experiment in reviewing).
- 116 A. K. Galwey and M. A. Mohamed, Proc. Roy. Soc. A396, (1984) 425–440.  
The low temperature thermal decomposition of ammonium perchlorate: nitryl perchlorate as the reaction intermediate.
- 117 A. K. Galwey, P. Gray, J. M. Griffiths and S. F. Hasko, Nature, 313 (1985) 668–671.  
Surface retexturing of platinum wires during catalytic oxidation of carbon monoxide.
- 118 A. K. Galwey, N. J. Carr and M. A. Mohamed, Reactivity of Solids. Proc. 10th Int. Symposium, Dijon, France, 1984, Elsevier, Amsterdam 1985, pp. 629–636.  
Interface chemistry in solid state decompositions.
- 119 A. K. Galwey and N. J. Carr, Reactivity of Solids. Proc. 10th Internat. Symposium, Dijon, France, 1984, Elsevier, Amsterdam 1985 pp. 697–698.  
Thermal decomposition of copper(II) malonate.
- 120 A. K. Galwey and M. A. Mohamed, Reactivity of Solids. Proc. 10th Internat. Symposium, Dijon, France, 1984, Elsevier, Amsterdam 1985, pp. 699–700.  
Thermal decomposition of silver malonate.
