VI CONFERENCE ON CALORIMETRY AND THERMAL ANALYSIS

WILL BE HELD IN ZAKOPANE, POLAND SEPT. 18–22, 1994

The Conference will aim at covering all aspect of calorimetry and thermal analysis. The following sections are planned:

Thermodynamics and thermochemistry of interactions in solutions

Investigations of biological and pharmacological systems

Calorimetry and thermal analysis of inorganic materials

Calorimetry and thermal analysis of carbon containing compounds and polymers

Calorimetry and thermal analysis in earth science

Instrumentation, modelling of calorimetric processes

Department of Physical Chemistry, University of Łódź

Pomorska 18, 91-416 Łódź, Poland

Tel.: (48 42) 32 04 27; (48 42) 32 14 32; Fax: (48 42) 78 39 58

26TH INTERNATIONAL VACUUM MICROBALANCE TECHNIQUE CONFERENCE

WILL BE HELD IN MARRAKECH, MAROCCO ON 26–28 APRIL, 1995.

The conference will focus on the aspects of mass and force determination in vacuum and controlled atmosphere including design of new balances and apparatus as well as applications like thermogravimetry and measurement of sorption, susceptibility, surface tension etc.
