**INTENSIVE SHORT COURSE**

**THERMAL ANALYSIS IN POLYMER RESEARCH AND PRODUCTION**

will be held 6–8 November 1995, Basel Hilton Hotel, Basel, Switzerland

Course Director: Professor Edith A. Turi, Polytechnic University, Brooklyn, New York, USA

Key topics:

- Instrumentation and Application
- Basic Transitions
- Organic Compounds
- Polymers
- Effect of Thermal History
- Thermal and Oxidative Stability
- Developing Processing Conditions
- Water in Polymers
- Physical Aging of Polymers
- Service Life Prediction
- Compounding
- Viscoelastic Properties of Polymers
- Hazardous Reactions
- Quality Control
- Problem Solving
- Practical Aspects
- Future Trends

For further information on program details,  
please contact Prof. Edith A. Turi,  
5 Oxford Drive, Livingston, New Jersey, USA  
Tel.: (1)-201-992-5511  
Fax: (1)-201-992-1576
