

## **14<sup>th</sup> International Congress on Thermal Analysis and Calorimetry and VI Congresso Brasileiro de Análise Térmica e Calorimetria**

**14–18 September, 2008, São Pedro–SP, Brasil**

Dear All,

In the name of the Organisation Committee this is my great pleasure to invite you to participate on 14<sup>th</sup> ICTAC and CBRATEC 6 (International Conference on Thermal Analysis and Calorimetry and 6<sup>th</sup> Brazilian Conference on Thermal Analysis and Calorimetry) will be held between 14–18 September 2008, in São Pedro, São Paulo State.

Since this is the first time, when such a large international thermoanalytical conference will be held in the South American continent, this is our great pleasure to be the host of the above mentioned events. The conference will be held in Hotel Fazenda Colina Verde.

Besides excellent award and plenary lectures, the scientific programme of the conference covers all aspects of thermal analysis and calorimetry:

- Theory and Instrumentation
- Thermodynamics and Thermochemistry
- Inorganic Chemistry, Metallurgy, Ceramics and Earth Science
- Polymers, Petrochemistry and Organic Chemistry
- Pharmaceutical, Food, Biological, Medical and Life Sciences
- Kinetics, Calorimetry, Catalysis and Applied Sciences
- Process Technologies
- Thermal Reactivity of Solids and Materials Sciences
- Energetic Materials and Thermal Hazards
- Fuels and Biofuels

After peer-reviewing the conference papers, they will be published in the Special Issue of the Journal of Thermal Analysis and Calorimetry.

Besides the scientific aspect, the Organisers also take care of the social programme; visits, excursions are planned in order to show the surrounding of São Pedro.

For all available details please visit <http://www.ictac14.com.br/>

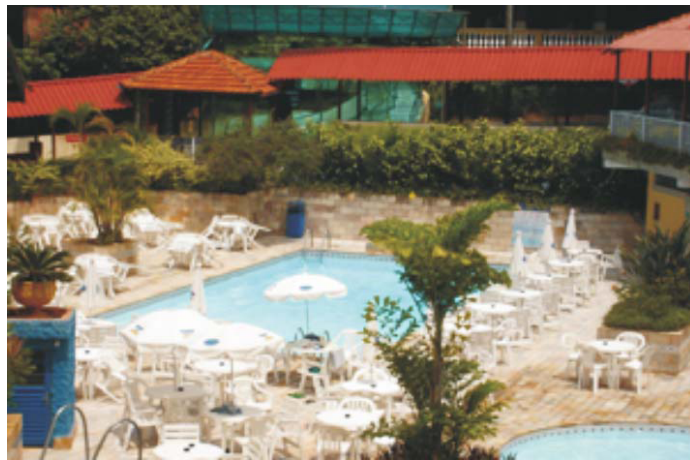

**Prof. Valter J. Fernandes Jr.  
Chairman**

## EVENTS

*Stairway leading to the entrance*

*Outdoor thermal bath at the hotel*
