**VI<sup>th</sup> Symposium on Medical Physics**  
**IV<sup>th</sup> International Symposium on Medical Physics**  
**15–18 June 2009, Beskid Mountains, Poland**

Dear Friends,

It is our great pleasure to invite you to the VI<sup>th</sup> Symposium on Medical Physics and the IV<sup>th</sup> International Symposium on Medical Physics which will be held in Beskid Mountains, 15–18 June 2009, Poland. The scientific program of VI<sup>th</sup> SMP and IV<sup>th</sup> ISMP cover invited talks by eminent specialists as well as oral and poster presentations based on submitted abstracts. Our Symposia provide traditionally forums for physicists, biologists, chemists, engineers and medical doctors to inform each other about development in their fields of interests. Our main goal is to offer the opportunity for exchanging ideas and opinions on the wide variety of issues. Thermal analysis is one of the important subjects of ISMP meetings. The selected conference papers will be published in the Special Issue/Chapter of the Journal of Thermal Analysis and Calorimetry. These papers are refereed by two independent experts. We will make every effort to make your participation at the symposium fruitful and pleasant.

*ISMP Chairmen*

*Prof. dr hab. Zofia Drzazga*

*Dr hab. Krzysztof Slosarek*

**ORGANISERS**

Center of Oncology - M.  
Skłodowska-Curie  
Memorial Institute, Gliwice

A. Chelkowski Institute of Physics,  
University of Silesia,  
Katowice

Symposium Organised Under the Auspices of the Polish Society of Medical Physics – Silesian Branch  
The Polish Oncological Society – Silesian Branch
