

Catalytic Enantioselective Synthesis of α -Aminoxy and α -Hydroxy Ketone Using Nitrosobenzene [*J. Am. Chem. Soc.* **2003**, *125*, 6038]. Norie Momiyama and Hisashi Yamamoto*

Page 6038. We incorrectly assigned the absolute configuration of α -aminoxy ketone **3a** and α -hydroxy ketone **5a** in Scheme 1 as (*R*). The correct absolute configuration of both products is (*S*), which was determined by X-ray analysis of the *O*-nitroso aldol product and transformation to the corresponding cyclohexane diol. The correct Scheme 1 is as follows:
