

Correction to Chemisorption of CO and Mechanism of CO Oxidation on Supported Platinum Nanoclusters

Ayman D. Allian, Kazuhiro Takanahe, Kyle L. Furdala,* Xianghong Hao, Timothy J. Truex, Juan Cai, Corneliu Buda, Matthew Neurock,* and Enrique Iglesia*

J. Am. Chem. Soc. **2011**, *133*, 4498–4517. DOI 10.1021/ja110073u

Page 4511. An error was discovered in Figure 15 which shows infrared spectra for chemisorbed CO on Pt clusters. These spectra were incorrectly described as those for chemisorbed $^{13}\text{C}^{16}\text{O}$ as a result of an inaccurately labeled container. These spectra are instead for chemisorbed $^{13}\text{C}^{18}\text{O}$ species, as is evident from the frequency of these infrared bands.

None of the conclusions in this article are affected in any way by this correction.

We thank Brett Loveless (University of California at Berkeley) for bringing this inaccuracy to our attention.
