

Correction to Enantioselective Synthesis of *anti*- and *syn*-Homopropargyl Alcohols via Chiral Brønsted Acid Catalyzed Asymmetric Allenylboration Reactions

Ming Chen and William R. Roush*

J. Am. Chem. Soc. **2012**, *134*, 10947–10952. DOI: 10.1021/ja3031467

During the preparation of this manuscript, an important paper on enantioselective aldehyde *anti*-propargylation was published but was inadvertently not cited: Geary, L. M.; Woo, S. K.; Leung, J. C. Krische, M. J. *Angew. Chem., Int. Ed.* **2012**, *51*, 2972. The authors apologize for this oversight.
