Supporting Information, page S11: The structure of compound 21 was mis-assigned in the scheme showing the formation of compounds 21 and 20 from 19. The correct structure of 21 is as follows:

This does not impact the content or conclusions in the manuscript. The structure for compound **20** as reported in the Supporting Information remains correct. The complete corrected scheme is shown here:

N-methyl notoamide E (19)
