

Correction to Completely β -Selective Glycosylation Using 3,6-O-(o-Xylylene)-Bridged Axial-Rich Glucosyl Fluoride

Yasunori Okada, Noriaki Asakura, Masafumi Bando, Yoshiki Ashikaga, and Hidetoshi Yamada* J. Am. Chem. Soc., 2012, 134, 6940–6943. DOI: 10.1021/ja301480g

Page 6941. There is an error in both eq 1 and the TOC graphic. In eq 1, the catalyst $AgB(C_6H_5)_4$ should be corrected to

2
$$\xrightarrow{\text{AgB}(C_6F_5)_4}$$
 $\xrightarrow{\text{BnO}}$ $\xrightarrow{\text{BnO}}$ $\xrightarrow{\text{BnO}}$ $\xrightarrow{\text{OP}}$ $\xrightarrow{\text{BnO}}$ $\xrightarrow{\text{OP}}$ $\xrightarrow{\text{BnO}}$ $\xrightarrow{\text{OP}}$ $\xrightarrow{\text{P-7a}}$ $\xrightarrow{\text{R} = C_6H_{11}CH_2-}}$ (96%)

 $AgB(C_6F_5)_4$. The TOC graphic should appear as the following, with catalyst $AgB(C_6H_5)_4$ corrected to $AgB(C_6F_5)_4$:
