

Addition to “The Role of Arene–Arene Interactions in the Folding of *ortho*-Phenylenes”

Sanyo M. Mathew, James T. Engle, Christopher J. Ziegler, and C. Scott Hartley*

J. Am. Chem. Soc. **2013**, *135*, 6714–6722. DOI: 10.1021/ja4026006

Supporting Information

Supporting Information. The Cartesian coordinates for the optimized computational geometries, while correct, could not be copied and pasted from the Supporting Information file in PDF format. Thus, an ASCII file of Tables S34–S105 has been added.
