

## Correction to How Does a Drug Molecule Find its Target Binding Site?

Yibing Shan, Eric Kim, Michael P. Eastwood, Ron O. Dror, Markus A. Seeliger, and David E. Shaw\*

*J. Am. Chem. Soc.* **2011**, *133*, 9181–9183. DOI: 10.1021/ja202726y

### **S** Supporting Information

Supporting Information, page 1. The residues for the kinase domain included in the simulations were incorrectly stated. The sentence should read: “Only the kinase domain (residues 259–533) was included in the simulations.”
