S Supporting Information

Supporting Information, pages S11, S15, S19, S21, S28, and S31. The ¹H NMR spectra of compounds **13**, **14**, **16**, **1**, **17**, and **24**, respectively, were improperly manipulated in the originally published Supporting Information to obscure small peaks corresponding to solvent and other impurities. Unaltered spectra are included in the revised Supporting Information.

The changes do not affect any of the conclusions of the article.
