

Correction to “Modulation of Quinone PCET Reaction by Ca²⁺ Ion Captured by Calix[4]quinone in Water”

Yang-Rae Kim, R. Soyoung Kim, Sun Kil Kang, Myung Gil Choi, Hong Yeong Kim, Daeheum Cho, Jin Yong Lee,* Suk-Kyu Chang,* and Taek Dong Chung*

J. Am. Chem. Soc. **2013**, *135*, 18957–18967. DOI: 10.1021/ja410406e

Page 18958. At the end of the second sentence of the **Synthesis** section under Experimental Details, the phrase “and BaO in dichloromethane” should be removed, so that the text appears as “...using *tert*-butyl bromoacetate and BaO in *N,N*-dimethylformamide (DMF). The phenol...”

Page 18960. The constant $2.303RT/F$ multiplied on the right side of eq 9 should be inverted, so that the complete equation appears as

$$\log K_{\text{disp},\text{pH}} = \frac{F}{2.303RT} (E_{\text{Q}\bullet-/ \text{QH}\cdot, \text{pH}} - E_{\text{Q}/ \text{Q}\bullet-}) \quad (9)$$
