

Retraction of “Indium-Mediated Catalytic Enantioselective Allylation of *N*-Benzoylhydrazones Using a Protonated Chiral Amine”

Sung Jun Kim and Doo Ok Jang*

J. Am. Chem. Soc. **2010**, *132*, 12168–12169. DOI: 10.1021/ja1035336

The structures of the major compounds in this study, [**1aH**]⁺ and [**1bH**]⁺, were misassigned, and hence the reaction mechanism reported in the Communication is incorrect. Accordingly, the main conclusions of the work no longer stand, and the authors retract this publication.
