

Correction to “A Crystal Structure of an Oligoproline PPII-Helix, at Last”

Patrick Wilhelm, Bartosz Lewandowski, Nils Trapp, and Helma Wennemers*

J. Am. Chem. Soc. **2014**, *136*, 15829–15832. DOI: 10.1021/ja507405j

Supporting Information

Supporting Information, page S3. In the table “Backbone dihedral angles”, the $O_{i-1}-C_{i-1}-N_i-C_i^\alpha$ dihedral angles were listed instead of the ω -angles $C_{i-1}^\alpha-C_{i-1}-N_i-C_i^\alpha$. The ω dihedral angles are listed in the corrected version of the Supporting Information.
