

Retraction of “Mechanical Activation of Catalysts for C–C Bond Forming and Anionic Polymerization Reactions from a Single Macromolecular Reagent”

Andrew G. Tennyson, Kelly M. Wiggins, and Christopher W. Bielawski*

J. Am. Chem. Soc. **2010**, *132*, 16631–16636. DOI: 10.1021/ja107620y

Based on an investigation conducted by The Office of Research Integrity at The University of Texas at Austin, it was determined that the data from the polymer chain scission kinetic analyses were fabricated by one of the co-authors affiliated with the University at the time of its publication. Although the other data in the article and overall conclusions are authentic, the scientific conclusions specifically derived from the fabricated data are unreliable. The authors retract this article accordingly.

The original paper was published November 2, 2010 (*J. Am. Chem. Soc.* **2010**, *132*, 16631–16636. DOI: 10.1021/ja107620y), and retracted March 11, 2015.
