

Correction to “Transformable Nanostructures of Platinum-Containing Organosilane Hybrids: Non-covalent Self-Assembly of Polyhedral Oligomeric Silsesquioxanes Assisted by Pt···Pt and π – π Stacking Interactions of Alkynylplatinum(II) Terpyridine Moieties”

Ho-Leung Au-Yeung, Sammual Yu-Lut Leung, Anthony Yiu-Yan Tam, and Vivian Wing-Wah Yam*

J. Am. Chem. Soc. **2014**, *136*, 17910–17913. DOI: 10.1021/ja510048b

In this Communication, the term “metallophilic interactions” was used. All six instances of the term “metallophilic interactions” should be replaced by “metal–metal interactions”, which is the more appropriate term to describe these specific non-covalent interactions, to avoid unnecessary misunderstanding. This correction does not in any way affect the results and conclusions in the article. The authors apologize for any inconvenience caused by this error.
