

Correction to “Stabilized Naked Sub-nanometric Cu Clusters within a Polymeric Film Catalyze C–N, C–C, C–O, C–S, and C–P Bond-Forming Reactions”

Judit Oliver-Meseguer, Lichen Liu, Saray García-García, Clàudia Canós-Giménez, Irene Domínguez, Rafael Gavara, Antonio Doménech-Carbó, Patricia Concepción, Antonio Leyva-Pérez,* and Avelino Corma*

J. Am. Chem. Soc. **2015**, *137*, 3894–3900. DOI: 10.1021/jacs.5b00222

S Supporting Information

Page 3894. The first author’s surname should be “Oliver-Meseguer” (just one “s”). It is shown correctly in the list of authors here and on the title page of the revised Supporting Information file.

Page 3899. In the Experimental Section, Typical Reaction Procedure, “diethyl ether” was used, not “dimethyl ether” (twice, lines 8 and 10 in the paragraph). The complete third sentence of this section should read as follows: “The vial was sealed, and the resulting mixture was placed in a pre-heated oil bath at 135 °C and magnetically stirred. After 24 h, slow addition of diethyl ether or dichloromethane (5 mL) and water (6 mL), separation of the organic layer, and two extractions of the aqueous layer with diethyl ether or dichloromethane were carried out before the combined organic layers were dried over MgSO₄ and then filtered.”
