

## Addition to “Mild and Regioselective Benzylic C–H Functionalization: Ni-Catalyzed Reductive Arylation of Remote and Proximal Olefins”

Yuli He, Yalei Cai, and Shaolin Zhu\*<sup>Ⓜ</sup>

*J. Am. Chem. Soc.* **2017**, *139*, 1061–1064. DOI: [10.1021/jacs.6b11962](https://doi.org/10.1021/jacs.6b11962)

Page 1064. In ref 5, besides the review on remote functionalization through alkene isomerization, some representative original research papers were inadvertently omitted. Those are listed here as ref 1; they should be included as parts (b)–(w) of ref 5 in the original publication. We apologize for this oversight.
