Spring Meeting

NO American Oil Chemist can afford to miss this year's meeting at New Orleans, May 31st and June 1st.

The technical program fairly bristles with interest for every oil technician, including the technically trained operating executives who form a valuable part of the society membership.

It is quite fitting that in times of reconstruction and readjustment such as we are passing through, papers on practical operating subjects should occupy an important place upon our program.

We show herewith a tentative program, subject to amplification, and refer you operating executives to the papers by B. H. Thurman, A. K. Schwartz and Dr. Freyer, E. M. James, Dr. Royce and Dr. Randolph. Honestly, you just can't afford to miss these presentations. And don't say, "I can read about them in OIL AND SOAP," because, while that's perfectly true, you'll miss participation in the discussion and you won't have the opportunity of informal discussions around the table and on the golf links, etc., which can mean so very much to all those attending.

Of great interest to every chemist will be the papers

by George Jamieson, Dr. Coates and M. M. Vick and Ralph Fash.

What chemist isn't anxious to hear the report of the Stability Committee, and of the Sampling Committee, and the F. A. C. and the Color Committee and the new Color Glass Development Committee, and all of the other committees that have come to mean so much to all of us.

An entertainment program of especial merit has been arranged this year by that fine local arrangements committee under the able leadership of Edward Williams. Don't miss it!

You convention visitors will find surpassing food and good company at Gallatoires, Arnauds, Kolbs, the rejuvenated Louisianne, etc.! And out at the golf tournament you can team up with serious foursomes who'll be *fighting* for the challenge trophy cup, including such real golfers as Williamson, Forbes, Irwin, Barrow, Agee, Hamner, Hatter, Tolman, etc., or you can play with the gay, carefree dubs such as Cox, Sanchez, Brownfield, Harris, etc.

And what a spot they've chosen for the banquet. The Southern Yacht Club, right on Lake Pontchartrain. There you may dance, cooled by the lake breezes, after watching the presentation of cups and prizes and partaking of a dinner prepared by one of the South's finest chefs.

PRELIMINARY PROGRAM

Thursday, May 31, 1934

Meeting called to order, 9:30 A.M., by E. G. Williams, chairman, Local Arrangements Committee.

Invocation

Reading of Minutes of 24th Annual Meeting.....
J. C. P. Helm
 Address of President.....J. P. Harris
 Report of Secretary-Treasurer.....J. C. P. Helm
 Report of Governing Committee.....J. C. P. Helm
 Appointment of Special Committees
 Report of Membership Committee.....W. R. Hutchins
 Report of Journal Committee.....W. H. Irwin
 Paper.....George S. Jamieson
 Report of the Cottonseed Analysis Committee.....
J. R. Mayfield, chairman
 Magnolia Seed Oil and Its Properties.....
C. E. Coates and M. M. Vick
 Report of Crude Oil Mill Operating Committee.....
J. J. Ganucheau, chairman
 Paper.....E. E. Randolph
 Report of Color Committee.....W. D. Hutchins, chairman
 Report of Color Glass Development Committee.....
L. M. Gill, chairman
 Paper.....B. H. Thurman
 Report of Moisture Committee.....C. H. Cox, chairman
 Annual Golf Tournament.....A. E. Sanchez, chairman

Friday, June 1, 1934. 9:00 A.M.
