Frank R. Middleton, representative
San Antonio, Texas

S/A. Moinho Santista-Industriais Gerais
Sao Paulo (Brazil)

Individual Associate Membership

John M. Dalglish
The Dallock Sales Corporation
New York, N. Y.

*There are several ways
to remove oil color . . .*

When properly done, each
processing step contributes
a part.

But since a decolorizing
clay must be used for final
cleaning up, use that clay
which gives *maximum*
bleach at lowest cost. We
recommend

ACTIVITE

a NEW, highly active nat-
ural clay for bleaching ani-
mal and vegetable oils.

BENNETT-CLARK CO., Inc.
