

Announce Technical Papers for May Meeting, New Orleans

THE last installment in the get-acquainted series on various members of the New Orleans convention committee is presented in the April issue of the Journal, preceding the 40th annual meeting to be held on May 10-12, 1949, at the Roosevelt hotel.

Blackstone Studios, W. 57th, N. Y. C.

C. P. Long

Also published in this issue is the program in full. The schedule opens on Monday, May 9, with a meeting of the Governing Board at 2 p.m., at which President C. P. Long, of Procter and Gamble, Cincinnati, will preside. Tuesday morning there will be the address of the president and reports by officers and committee chairmen. Wednesday afternoon will be dedicated to the annual golf tournament, and that evening to the annual banquet. Ladies attending the meeting will

have a full program, including a walking tour of the French quarter and luncheon and a tour of the New Orleans harbor, under the direction of Mrs. Frank G. Dollear and her committee. Past presidents will assemble for their annual dinner on May 10 at Arnaud's.

Final comment indicates an expectation of a good registration and a good time. For example: W. S. Singleton, oil research chemist at SRRL, who is in charge of registration, says "My co-workers and I are prepared to register the largest number ever to attend an annual meeting, but it will help if those who come early will register as soon as possible. There will be opportunity for pre-registration on the evening of May 9 at the Roosevelt hotel."

Treasurer E. A. Gastrock opines in a typical banker remark: "I hope actual registration exceeds our estimates. Black figures are much more interesting than red." He is head of the engineering and development division at SRRL.

As for the publicity chief, J. A. Kime, who is technical assistant to the director at SRRL when not convention-minded, he promises that "every effort will again be made to see that representatives of the press are provided with information on the major events of the meeting. Reporters frequently want to interview speakers in advance of their talks. Getting them together sometimes requires a lot of footwork."

General Chairman T. H. Hopper indicates that arrangements may be made through the local committee for conference rooms and group luncheons, preferably in advance; congratulates K. S. Markley, chairman, and members of the program committee in respect to the technical papers to be presented.

Frank C. Magne, being both a good chemist and a good golfer, announces that the golf tournament will again be held at the New Orleans Country Club. He has already collected some fine prizes and thinks the aggregate will be as impressive as usual.

Not pictured in this issue but well known to members for his previous work at New Orleans meetings is Col. H. P. Newton, hotel chairman and former convention chairman. Firmly, he announces that "reservations by my committee close on May 1. If you need accommodations, please write or wire me before that date."

Election of officers will be announced at the business session during the meeting, following the balloting by mail during March and April. The incoming president, V. C. Mehlenbacher of Swift and Company, Chicago, will preside at a meeting of the new board, probably on the evening of May 12. Retiring member of the Governing Board will be K. S. Markley, president in 1944-45.

Papers

- The Dicarboxylic Acids of Japan Wax
H. A. Schuette and R. M. Christensen
- Polymerization of Drying Oils. V. Further Observations on the Reaction of Unsaturated Dibasic Anhydrides with Methyl Linoleate
H. M. Teeter, U. S. Kini, R. A. Myren, and J. C. Cowan
- Reaction of Tertiary Butyl Hypochlorite with Vegetable Oils and their Derivatives. II. Methyl Oleate
H. M. Teeter and J. E. Jackson
- Modification of Vegetable Oils. VIII. Conversion of Monoesters of Fatty Acids to Triglycerides
Audrey T. Gros and R. O. Feuge
- Some Additional Notes on the Kinetics of Oil Hydrogenation
A. E. Bailey
- Chemical Properties of Active Carbon
John W. Hassler
- A New Solvent Extraction Process for Soybean Oil
O. R. Sweeney and L. K. Arnold
- Solvent Extraction of Rice Bran Oil. Production of B-Vitamin Concentrate and Oil by Isopropanol Extraction
W. W. Meinke, Bryant R. Holland, and W. D. Harris
- Isopropanol as a Solvent for Extraction of Cottonseed Oil. II. Separation of Purified Oil from Miscella
W. D. Harris, J. W. Hayward, and R. A. Lamb
- Pilot Plant Fractionation of Cottonseed. III. Process Development of Differential Settling
James J. Spadaro
- Trichlorethylene Extracted Oil
F. A. Norris, K. F. Mattil, and W. J. Lehman
- Phase Relations in Solvent Winterization of Cottonseed and Peanut Oils in Acetone
E. L. Skau, L. F. Banowitz, E. G. Burleigh, Jr., and W. N. Bopp, Jr.
- Rice Bran Oil. IV. Storage of the Bran as It Affects Hydrolysis of the Oil
J. N. Loeb, N. J. Morris, and F. G. Dollear
- Rice Bran Oil. V. Stability and Processing Characteristics of Some Rice Bran Oils
C. E. Swift, Sarah P. Fore, and F. G. Dollear
- Fractionation and Structure of Soybean Glycerides
Herbert J. Dutton, Catherine R. Lancaster, and Ordean L. Brekke
- Oil from the Kernels of Lalob Fruit, *Balanites aegyptiaca*
S. A. Hussain and F. G. Dollear
- Evaluation of Peanut Protein for Industrial Utilization
Jett C. Arthur, Jr.

Meet the New Orleans Committee

Looking pleased, three members of the New Orleans committee wind up arrangements for the 40th annual meeting of the Society at the Roosevelt hotel on May 10-12, 1949: (left to right) W. S. Singleton, E. A. Gastrock, and J. A. Kime, all with the Southern Regional Research Laboratory.

- A New Stirrer-Type Medium Pressure Reaction Apparatus
E. F. Binkerd, R. J. Vander Wal, L. Van Akkeren, and M. R. Hoppe
- The Influence of Processing on the Spectral Properties of Vegetable Oils
R. T. O'Connor, Elsie T. Field, M. E. Jefferson, and F. G. Doller
- Effect of Temperature on the Content of Pigments of Stored Cottonseed
Leah Castillon, R. T. O'Connor, C. M. Hall, and Charlotte Boatner Miller
- Determination of Free Gossypol in Cottonseed Materials
Walter A. Pons, Jr., and John D. Guthrie

Committee News

M. G. Boulware of Southern Cotton Oil Company has resigned from the Cellulose Yield Committee of the American Oil Chemists' Society, according to President C. P. Long, and his successor is P. A. Williams of the South Texas Cotton Oil Company, Houston, Tex.

New subcommittees of the Fat and Oil Analysis Committee have been announced by V. C. Mehlenbacher, chairman, as follows:

Determination of the Closed Cup Flash Point

D. S. Bolley, chairman
J. C. Konen
C. P. Long
H. T. Iveson
V. C. Mehlenbacher

Determination of Free Fatty Acids

W. O. Lundberg, chairman
George Crump
Jacob Fitelson
H. A. Schuette
Francis Seofield

Continuous Flow Method of Sampling

L. R. Brown, chairman
A. R. Baldwin
G. A. Crapple
H. T. Iveson
F. C. Woekel

J. K. Gunther has resigned as chairman of the subcommittee on lecithin, and Mr. Iveson has succeeded him.
