Continuous Deodorization

with the Unique Dowtherm Heated Bubble Tray—

the HEART of the
WURSTER & SANGER
Process

•
Provides simultaneous heating and steam stripping of the oil in shallow layers under high vacuum.

•
No high temperature oil outside the deodorizer.

No decrease in oil temperature during deodorization.

No great depth of oil to reduce the effective vacuum.

•
No moving parts within the deodorizer.

Plants regularly offered in 12 sizes, from 1000 to 10,000 pounds per hour capacity. Write for data sheet so that specific recommendations can be prepared by us for YOUR project. No obligation.
