Report of the Golf Tournament

THE Metairie Country club was host to the American Oil Chemists' Society golf tournament on the afternoon of May 5, 1953. A field of 46 players participated in medal play for the prizes contributed by the firms listed below. Through the generosity of Bennett-Clark and Company each entrant received three balls at the first tee.

Frank C. Magne was low-gross winner and therefore won a leg on the large sterling silver tray which has been donated through the courtesy of the American Mineral Spirits Company, Chicago, Ill. This tray must be won three times for permanent possession by a member in good standing. To indicate the winner of a leg, a smaller sterling silver bowl, donated by the same company, was presented to Mr. Magne.

Low-net winner, A. R. Volkmuth, won a handsome wrist watch, donated by the Filtrrol Corporation of Los Angeles, Calif.

The winners of the golf prizes, and the names of the firms donating these prizes, are as follows:
