

August 1 Is Deadline for Fatty Acid Entries

AUGUST 1 has been set as the deadline for manuscripts to be submitted for the \$500 award competition established by the Fatty Acid Producers' Division of the Association of American Soap and Glycerine Producers Inc. and administered by the American Oil Chemists' Society. Announcement of the winner will be made at the fall meeting of the Society at the Sherman hotel, Chicago, September 24-26.

D. H. Wheeler

Judges will be J. B. Brown, Ohio State University, Columbus; J. C. Cowan, Northern Regional Research Laboratory, Peoria, Ill.; and A. R. Baldwin, Cargill Inc., Minneapolis, Minn. Committee in charge of the competition comprises H. C. Black, Swift and Company, Chicago, chairman; S. T. Bauer, Crosby Chemicals Inc., De Ridder, La.; and D. H. Wheeler, General Mills Inc., Minneapolis, Minn.

The award is to be given for work done in an educational institution in the United States or Canada while the individual is a candidate for a degree (bachelor, master, or doctor) or on the staff of an educational institution within one year after receipt of such a degree. Submission of a paper or thesis may take place within one year after the author is graduated. In respect to team authorship, at least one of the candidates must meet the requirement as set forth above, in which event the entire team shall be considered eligible for the award.

Research leading to new or improved products based on fatty acid chemistry is to be emphasized in entries. Properties and applications of fatty acid products are considered of prime importance. Preference will be given to studies having some relation to pure or commercial grades of fatty acids rather than to physiological or biochemical studies of their glycerides. Originality in extending the application of such fatty acids or their derivatives into new fields of usefulness will receive special consideration.

Copies of the official entry forms may be obtained from the American Oil Chemists' Society, 35 E. Wacker drive, Chicago 1, Ill.

The Rota-Film Still for high vacuum and molecular distillation is described in a booklet offered by Arthur F. Smith Company, Rochester, N. Y.

The Manufacturing Chemists' Association has published a revised 20-page safety data sheet on hydrogen peroxide.

A.O.C.S. CALENDAR

1956

Fall Meeting: Sherman Hotel, Sept. 24-26, Chicago

1957

Spring Meeting: New Orleans

Fall Meeting: Cincinnati, Sept. 30, Oct. 1-2

1958

Spring Meeting: Memphis, Apr. 21-23

Fall Meeting: Chicago, Oct. 20-22

You Get The COMPLETE PACKAGE with BIRD PRESSURE FILTERS

The filter station shown above is a "packaged" unit, complete with pumps, piping, valves, fittings, meters, etc.—with every component carefully fitted to the specific application.

It is representative of the Pressure Filter installations Bird is prepared to design for you—a service which offers you the chance to acquire an efficient, economical filtration system delivered to your door.

Bird experts in the filtering of vegetable oils will be glad to make recommendations and estimates for you. Pilot-size units are available for test runs before you invest in equipment.
